

West End Village

- Orient buildings and parking to take full advantage of natural views and physical connections to Carver Park Reserve
- “Layer” gateway elements onto natural wetlands along Highway 5 to signal entry to downtown
- Work with MN/DOT to determine access parameters to land area south of Highway 5
- Create a street pattern and character that builds from the character of “old” downtown Victoria
- Develop trail/sidewalk network from West End Village to the downtown core
- Design Steiger Lake Lane as a parkway and primary access route through West End Village to County Road 11
