The Community Garden will be located at Rhapsody Park and Future Public Works Site.  
Plots will be laid out in the spring of 2010 but at this time we anticipate that they will be laid out  
north/south (length) and east/west (width) in sizes 20' x 10'.

Community Garden plots will be available in early May, weather permitting. Only one plot will be assigned to a household until all initial assignments have been made. After May 5, if there are still plots available, you may apply for a second one. All plot assignments will be made in the order the applications are received. Applications will not be accepted before March 1<sup>st</sup>. The City is not responsible for policing the garden area or controlling vandalism.

### **City Responsibilities**

1. Prepare the garden area for planting by plowing.
2. Stake all plot corners and identify each plot by number.
3. Provide holding tanks for water. The Public Works crew will attempt to provide water regularly.
4. Provide a portable toilet and garbage can on-site.
5. Mail plot number assignments and a map of the gardens in early May.

### **Applicant Responsibilities**

1. Keep your assigned plot as clean and neat as possible.
2. Supply your own seeds, fertilizer and equipment for proper preparation, growing, cultivating and harvesting of crops. Only organic material can be used in the garden.
3. Water your own plot without over-use of the water supply.
4. Use cultivation or mulches to control weeds, not chemicals.
5. By October 15<sup>th</sup>, remove all garden refuse and stakes.
